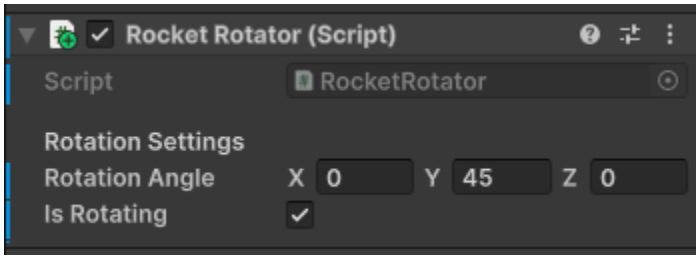
Rockets, Missiles & Bombs - Cartoon Low Poly Pack

Hello and thank you for checking out my assets. I hope you find a good use for them.

If desired, attach RocketRotator.cs to a rocket to have it rotate. Insert the rotation speed desired into the vector.



If you feel like supporting me you can just leave a review on the asset, or follow one of my socials.

If there is anything I can help you with please do not hesitate to contact me on Discord, one of my socials or at Bentlman1981@gmail.com.

You may use these in commercial projects.

If you do use these in a game or something please share it with me or @ me somewhere with screenshots or a download link so that I can see it and share it with my friends and community =)
